

# Let's Create

Let's create the woman said  
To form a craft group she was led  
What! sew n stitch n cut n stick it?  
For many folk it's just the ticket.

A bright young star soon came along  
To help the preps go with a song  
She's never stopped her joyful noise  
And brought her toddler with his toys.

We're trying poetry right now  
Wordsworth tries to show us how  
There's lots of polishing to do  
So praps we'll keep reading too!

We are blessed with many skills  
All share easily with a will  
"I can't do that!" is often spoke  
Then a new talent is soon awoke.

We sew n draw n learn new stuff  
Have awful jokes from off the cuff  
We laugh a lot n so could you  
Please come n join our happy crew!

*Ann and Nicola*
